CI 491

Diabetic Meal Planner

Thomas Capro, Francisco Cruz-Urbanc, Carson Ford, Krisi Hristova, Jared Jackson

11/18/2024

Accomplishments this week

- **Krisi** – Completed Product Features of SRS, assigned new tasks in schedule (individual Feature Requirements, specific page designs, term-end presentation), added Project Plan & IOS Dev Doc to GitHub

- **Francisco** – Started working on Non-Functional Requirements section of SRS

- **Thomas** – Finished Introduction section of SRS, Researched and Documented Technologies for IOS Mobile Development

- **Carson** – Completed 4 more functional requirements of the Specific Requirements section of the SRS

- **Jared** – Added Word Table of Contents, started working on External Interface Requirements of SRS

Tasks not completed as planned

- Did not have enough time to create the logo last week, will work on it this week

Schedule

- DiabeticMealPlannerGantt

Plans for next week

- Update GANTT chart as we work.
- Create logo and send to stakeholders (due 11/25) - Krisi
- Continue working on Software Requirements Spec (due 11/27)
  - Intro: Thomas
  - Description: Krisi
  - Software Req/Features:
    - Functional Requirements: Carson
    - Nonfunctional Requirements: Francisco
    - External Interface Requirements: Jared
  - Appendix: Everyone

Issues

- Where do we need to go to set up AWS services?
- When do you recommend that we start setting it up?

- End of term presentation – what should be included?

- Feedback for Project Plan?
